Production Handbook

Overview

Discovery Networks International maintains a Production Insurance Program (“The Program”) that satisfies all of Discovery’s insurance requirements with the exception of Owned Automobile coverage and any local compulsory foreign coverage(s) which is the responsibility of the production company. The Program is administered by Discovery’s insurance broker, Aon Media & Entertainment.

Process

In order to activate coverage under the Program, the production company must complete and submit an application for insurance to Aon. Upon satisfactory review of the completed application, Aon will send a premium invoice to the production company for payment. Aon will send the production company a summary of insurance evidencing coverage under the Program.

Higher-hazards and Special Risk Coverage

You must advise Aon in writing, of any special risks associated with your project. This includes but is not limited to: stunts, pyrotechnics, firearms, precision driving, aircraft, drones, watercraft, railroads, foreign activities, animals, or any unusual or hazardous exposures and/or conditions involving either cast or crew. The production company is responsible for the payment of any premium(s) associated with Special Risk coverage (if required).

Political Risk and Kidnap & Ransom Insurance are **NOT** provided under this insurance program. Political risk insurance includes coverage for extra expenses incurred by production as the result of government confiscation of assets, political violence, including acts of civil unrest or insurrection, as well as acts of war. Kidnap & Ransom Insurance indemnifies production for monies paid to kidnappers or extortionists, loss of ransom in transit, and other expenses incurred as a result of a kidnapping incident. If you are interested in either of these coverage(s) please reach out to your Aon Service Team.

Cost

The total cost to utilize the Program is the Composite Rate of 0.63% multiplied by Net Insurable Production Costs (NIPC). For example, if a production’s NIPC is £500,000, the premium would be £3,150 (0.63% multiplied by £500,000).

Film Union Travel Insurance or “FUTI” (cover details on page 8) is required whether you are filming inside or outside your country of domesticity. The rates are 0.05% for in country and 0.1163% for external travel. If there are any of the following activities, there is additional rate loading:

	Loading for Activities		Total Rate including Base Rates & Loading	
	Domestic	International	Domestic	International
Base Rate			0.05%	0.1163%
Precision Driving	0.0025%	0.00582%	0.0525%	0.122115%

Underwater Diving	0.0125%	0.02908%	0.0625%	0.145375%

High Risk Travel	0.0250%	0.05815%	0.0750%	0.174450%

There is a £150 per person, per flight, charge for any chartered flights.

Non-Owned Contingent Aircraft/Drone Liability rates are as follows as long as all requirements have been met (outlined on page 34 for Aircraft & page 36 for Drones). Any special or unusual hazards involving aircraft may result in higher premium(s).

Drones

- 1-5 days of filming - \$500 USD / \$1,800 USD when filming in the US
- 6 days or more of filming - \$750 USD / \$2,200 USD when filming in the US

Aircraft

- \$1,000 USD for any use - \$3,500 USD when filming in the US

If filming in the U.S., the U.S. liability needs to be activated. U.S. liability is calculated as the U.S. component of the budget multiplied by 0.50%. For example, if the U.S. budget is \$100,000 the U.S. liability premium is \$500. This rate is effective from 1st May 2024 to 1st May 2025.

Please note rates do not include UK or local country issuance taxes, nor any specialty coverages you may need which may result in a premium which will be in addition to the total cost(s) previously referenced.

Net Insurable Production Costs are defined as the budget, less production fee (if any), less insurance cost (if any), less agency fee (if any) and less contingency (if any). Please note that special risk coverage(s) may result in a premium which will be in addition to the total cost previously referenced.

If you have a claim

Immediately notify Aon, in writing, of any claims, threats of claims, suits, damage to property or any other loss. To ensure timely settlement of your claim, you must provide all necessary documentation in support of your claim(s) on a timely basis. You must also cooperate with and permit Aon and its insurance carriers to conduct the investigation and defense of your claims, suits or losses. Please note that the production company is responsible for any deductible(s) associated with the Program.

I. Picture Vehicles

Shoots inside the UK

The UK Production Package policy provides Physical Damage coverage for on-camera picture vehicles. This coverage is on a worldwide basis and would include coverage for shoots outside of the UK.

As respects UK Auto Liability for on camera picture vehicles while being driven on public highways/roads where the UK Road Traffic Act applies, the production will need to take out UK Auto Liability with Allianz. Allianz will quote this separately and the vehicles must be UK registered. Coverage would extend to any Liability arising in European locations provided vehicles are UK registered. The charge is £100 + Tax per vehicle per day.

Please notify your Aon Service Team at least 24 hours in advance if UK Auto Liability will be required

If the shoot is on private property, the Public Liability policy covers the liability.

Shoots outside the UK

As respects liability for shoots outside the UK, production will need to secure local Automobile Liability including Physical Damage coverage in that country.

Shoots in the U.S.

As respects liability for shoots in the U.S., Automobile Liability can be included under the U.S. Hired/Non-Owned Automobile Liability policy. Auto Physical Damage coverage, however, should be secured with the auto rental company.

II. Rental Vehicles

Shoots inside the UK

For any UK rental vehicles used purely for Production transportation purposes and not being used on camera, the Auto physical damage and Liability Insurance must be secured with the auto rental company in the UK.

Production Handbook

Shoots outside the UK

Any rental vehicles used purely for Production transportation purposes and not being used on camera for shoots outside of the UK, must be secured with the auto rental company in that respective country and must comply with local laws and regulations.

Shoots in the U.S.

As respects liability for shoots in the U.S., Automobile Liability can be included under the U.S. Hired/Non-Owned Automobile Liability policy. Auto Physical Damage coverage, however, should be secured with the auto rental company.

Please note Owned Automobile Insurance is not covered under the Production Insurance Wrap-Up Program and is the responsibility of the Production Company. Should you have any questions about these coverages, please discuss with your Aon Service Team.

Production Handbook

Clearance procedures

Please read the following section carefully.

Clearance has the simple purpose of ensuring that the insured production is not vulnerable to litigation. You should ensure that:

- a. if the insured production carries any risk of libel, or a related legal problem, it is cleared; and
- b. all rights necessary to production, exhibition, and distribution in all media are secured before you fill in this form, or will be as soon as practicable. We must be informed of any rights problems related to material included in the insured production, as soon as you become aware of them, and you must seek advice on such problems from your own attorneys.

Accordingly, you and your attorneys should be sure before first exhibition of the insured production that:

1. All necessary rights have been obtained, covering domestic and foreign territories, including any extensions and renewals, for all literary material (other than original and unpublished material) contained in the insured production. If full copyright is not obtained, any limitations and/or reservations must be notified to us. If you are acquiring the insured production as a completed work (such as a pick-up of a motion picture) rights must also be secured covering the completed work. The origin of all works on which the insured production is based must be traced and cleared in order to ascertain that you have all the required rights in the work.
2. Written agreements must exist between you and the creators, authors, writers and owners of all material, including quotations from copyrighted literary works, film, television, and audio clips, clips of pre-existing music, featured copyrighted props such as maps, etc., used in the insured production, authorising you to use the material in the insured production (except in the case of approved 'fair dealing' or 'fair use'). All agreements should include a waiver of so-called 'moral rights'
3. If the subject matter of the insured production is potentially defamatory, or for any other reason legally contentious, it has been cleared by a suitably qualified attorney, as has any 'fair dealing' or 'fair use' and all recommended changes have been made.
4. In the case of fictional characters, a full cast script clearance check has been carried out, also of business names, etc. and again, all recommended changes have been made.
5. All contracts and releases must give you the right to market the insured production for use in all media and markets (e.g. DVD, video cassette, digital format, internet etc.). In particular, any gaps in respect of underlying rights must be notified.
6. Synchronization and performance licenses must be obtained from the composer or copyright owner of all music used in the insured production. Licenses are unnecessary if the music (and its arrangement) is in the public domain. Licenses must also be obtained from the owners of recordings for the use of previously recorded music.
7. If the insured production contains any film clips, you have obtained authorisation to use the film clip from the owner of the clip who has the right to grant such authorisation and have obtained authority from the owners of and contributors to the film clip e.g. underlying literary and musical rights, owners, actors, and musicians etc. All releases must give you the right to edit, add to and/or delete any or all of the material supplied by the releaser. If you intend to rely on a fair use or fair dealing defense for your usage of any film clips, you have solicited an external media lawyer's opinion confirming that, in their reasonable opinion, your use of these clips would qualify under this defense.
8. You must be sure that you or any of your partners or directors have not received any unsolicited submissions of any literary or dramatic material, programme ideas, formats or storylines from any third parties which are similar in content or style to the insured production. If you have, you must have a process for dealing with them and quit claims must be obtained where appropriate.
9. Any problems relating to the insured production which are not known at the time of completing this application form must be notified to us as soon as they arise.

Production Handbook

10. Any bonus material, interviews or outtakes included on a DVD or any other media version of the production must go through the same clearance procedures as the insured production.
11. Any uses of copyrighted material in its renewal term must be authorized by persons or entities entitled by statute to renew.
12. All contracts, releases, grants of rights of every kind (including all prior grants in your chain of title) must authorize you to use the acquired material in your production and to assign or sublicense it in any form.
13. The above clearance procedures are not exhaustive, nor do they cover all situations which may arise, given the great variety of productions. You and your attorneys must continually monitor the insured production at all stages, and in light of any special circumstances, make certain that the insured production contains no material which could give rise to a claim.
