NZ ON AIR

STYLE AND ACCREDITATION GUIDELINES

This document is the main guide for using NZ On Air’s brand assets and acknowledging our brand on or around funded content, wherever it appears.

It is important New Zealanders know what their taxpayer dollars have funded. Consistent accreditation helps reinforce the cultural value of this funding to Aotearoa.

These accreditation requirements form part of the contract for funding. Any NZ On Air logos or images found elsewhere are not approved for use.

Any circumstances not anticipated by this document should be negotiated with an NZ On Air Communications team member well before your content is published or broadcast.

Should you have further queries relating to this guide or the NZ On Air brand, please contact: communications@nzonair.govt.nz

APPLYING THE ASSETS

SCRIPTED AND FACTUAL CONTENT

This section applies to Scripted and Factual funded content which can include but is not limited to:

- Free-to-air television content.
- Online and On Demand content (excluding content made specifically for social media) e.g. content for TVNZ OnDemand, The Spinoff, NZ Herald, Stuff, The Coconet etc.
- Feature-length content e.g. for theatrical release, festivals etc.
- Live event coverage e.g. awards ceremonies, national commemorations etc.
- Games* e.g. those funded for the HEIHEI.nz games platform

For content that is produced for both a theatrical and a linear television/online release, and/or content that is funded by multiple funding agencies please contact communications@nzonair.govt.nz for advice on appropriate accreditation.

ON CONTENT

NZ On Air knows that the best opportunity to inform viewers they are watching a NZ On Air-funded piece of content is at the beginning.

We expect that your **opening title sequence should include the phrase “Made with the support of NZ On Air.”** This text should be stylistically consistent with the rest of the title sequence.

If your content does not have an opening title sequence, **the NZ On Air animated logo bug must appear in the top left corner of the content within the first 20 seconds of the content.**

Regardless of whether there is a title sequence or not, **the NZ On Air animated logo bug must appear after commercial breaks at least twice in a half hour programme and at least three times in a full hour programme.** If your content is longer than an hour please contact communications@nzonair.govt.nz

NZ On Air should be acknowledged in the end credit sequence, our preference for this is to be full-screen using the NZ On Air animated credit sequence. If this is not possible, written acknowledgement of NZ On Air funding and/or the inclusion of the static NZ On Air logo may be allowed, but only with explicit agreement from an NZ On Air Communications staff member.

The NZ On Air animated logo bug must also be applied on all secondary or additional distribution platforms for funded content. If the secondary or additional platforms differ in media type e.g. podcasts or text-based content, they must adhere to the accreditation requirements specified for those platforms as well.

NZ On Air accreditation should remain on all funded content that is sold or distributed internationally.

All funded content must adhere to our publicity and accreditation requirements on page 12, and our social media requirements on page 13.

ON HOSTING WEBSITES OR DIGITAL PLATFORMS

On Demand and catch-up pages that feature and/or host funded video content must include the phrase “Made with the support of NZ On Air.”

If the content is accompanied by a written component/article, the phrase “Made with support from NZ On Air” must appear in the written introduction and/or conclusion. If this is not possible, the NZ On Air static logo should be used either on the page or on the hero image.

If the content is hosted on a custom webpage, it must include either the phrase “Made with support from NZ On Air” and/or the NZ On Air static logo.

*Games funded for the HEIHEI.nz Games platform must include both the NZ On Air and the HEIHEI logo during the splash/loading screen and/or end credit sequence of the game. Both these logos should be equally sized and displayed in the center of the screen. These logos can be downloaded [here](#). If you have any questions about HEIHEI Game accreditation please contact dan@gamefroot.com

SOCIAL MEDIA CONTENT

This section applies to Scripted and Factual content funded specifically for social media platforms such as YouTube, Instagram, Facebook, TikTok etc.

Please note, Scripted and Factual content funded for social media platforms must also adhere to our publicity and accreditation requirements, including social media requirements (for promotion) on page 13.

As a general rule, any content that includes a title sequence should include the phrase “Made with the support of NZ On Air.” This text should be stylistically consistent with the rest of the title sequence.

NZ On Air has provided an appropriately-scaled version of our animated credit sequence to be included on social media content. This is available in the logo pack on our website.

VIDEO CONTENT OVER ONE MINUTE

If the funded content is longer than one minute (e.g. YouTube, IGTV, and Facebook videos), the NZ On Air logo bug should appear in the top left corner of the content within the first 20 seconds of the content.

If there are any breaks for ad-content, the NZ On Air logo should appear again in the top left corner after each break.

If the content includes an end credit sequence, this sequence must include either the phrase “Made with the support of NZ On Air” and/or the NZ On Air animated credit sequence.

VIDEO CONTENT UNDER ONE MINUTE

If the funded content is shorter than one minute (e.g. TikTok videos, Instagram reels, Facebook videos) the NZ On Air logo bug may be omitted so as not to detract from the short-form content.

NZ On Air requires in this instance that you acknowledge funding in a manner suitable to your content. This could be the inclusion of the phrase “Made with the support of NZ On Air” in the caption of the content, the use of the NZ On Air logo on the thumbnail of the content, and/or the use of the NZ On Air animated credit sequence.

If you have any questions around how to acknowledge NZ On Air funding in an appropriate way, please don’t hesitate to get in touch with communications@nzonair.govt.nz

INITIATIVES AND EVENTS FUNDED THROUGH INDUSTRY DEVELOPMENT

The phrase “supported by NZ On Air” and/or the NZ On Air logo should be included on all promotional material for the event – including banners, ads, leaflets etc.

NZ On Air should be notified of the event and given the opportunity to provide NZ On Air banners if the event is based in Wellington or Auckland. Please contact communications@nzonair.govt.nz to arrange for these banners to be provided.

*This excludes RNZ, which has separate accreditation requirements in place with NZ On Air

Please note, all Music content must also adhere to our publicity and accreditation requirements on page 12, and our social media requirements on page 13.

The NZ On Air logo bug must appear once in the video content, in the top left corner and towards the end of the video content.

An alternative version of the logo bug aligned to the top right corner has also been supplied. Please use this version of the logo bug if there are video previews or advertisements that would obscure the preferred top left logo bug placement.

On YouTube and Vimeo channels the artist should identify in the supporting text that the song is “Made with the support of NZ On Air.”

VIDEO CONTENT UNDER ONE MINUTE

If your video content is under one minute (e.g. teasers, trailers, outtakes, behind-the-scenes, snippets etc) then the NZ On Air logo bug may be omitted so as not to detract from the short-form content.

This could be the inclusion of the phrase “Made with the support of NZ On Air” in the caption of the content, the use of the NZ On Air logo on the thumbnail of the content, and/or the use of the NZ On Air animated credit sequence.

NZ On Air has provided an appropriately-scaled version of our animated credit sequence to be included on social media content. This is available in the logo pack.
